Gary Keville launches a new Traffic Management Training Centre

GKTM is proud to announce the launch of its new Training Centre situated on its 4 acre site in Ringsend it is ideally located for most transport/construction companies. Offering a wide range of courses this latest development is yet another example of the creativity and vision Gary Keville shows in identifying the needs of the market.

GKTM is dedicated to improving safety standards and to providing a one stop shop for all your traffic management needs. From design to installation, or from supply of products to training GKTM has a solution for you.

“GKTM now offers training courses in TM and is expanding its course profile to include new courses. For all your training requirements contact us for advice.
